

## Virtual Number Services

A virtual number allows your colleagues to call a regular phone number and reach your Netphone. There are no international toll charges for people to call you. This service is categorized into two types: Single Dial and Double Dial.

### Single Dial: “DID Numbers”

If you subscribe to this type you will be assigned your own personal regular telephone number in a city of your choice (See list below). Your colleagues can then dial the number that you have been assigned and it will automatically ring your Netphone. Example: John is a Netphone user in Australia. He has been allocated a Los Angeles regular phone number: 1-213-534-8888. John’s colleagues in the U.S just dial 1-213-534-8888 and no matter where John’s Netphone is located it will automatically ring. There are no international per minute charges, just a monthly fee

### Double Dial: “Free Access numbers”

Below is a list of FREE “Access numbers” to pass to your colleagues. Your colleagues can select the access number closest to their location and dial that regular number. They will then hear a new dial tone and will key in your 7 digit Netphone number to be connected to your Mamakall phone.

Examples: John is a Netphone user in Australia with Netphone number 6667777. John provides his Los Angeles colleagues with the access number 1-213-534-8888. His colleagues then dial 1-213-534-8888 from their regular phone, and after hearing the new dial tone key in 6667777 to be connected to John's Netphone.

The access numbers listed will give you a second dial tone or voice prompt to which you can input any 7 digit IP phone number.

Please note: These access numbers are free to use. The "A" grade numbers are the best quality and will be more reliable. The "B" grade numbers can not be guaranteed to always be available. Please use the "A" grade numbers where possible.
